LPX Group Summit 2011 Widder Hotel Zurich - October 19, 2011 13.30h-19.00h

Presenting Institutions:

Altamir Amboise is a listed investment company that invests directly in funds managed by Apax Partners. The company leverages Apax Partners' know how and investment strategy, which involves backing fast-growing companies, at different stages of private equity investment.

With 30 years of investment experience, **Gimv** is Belgium's most important private equity and venture capital provider and a major European and international market player. Gimv makes venture capital investments and also focuses on buyouts and growth financing.

Since 1984, **Onex** has acquired and built great businesses as a private equity investor. More recently, Onex has leveraged its investing expertise to build an asset management business. Onex currently manages approximately \$10 billion of third-party capital.

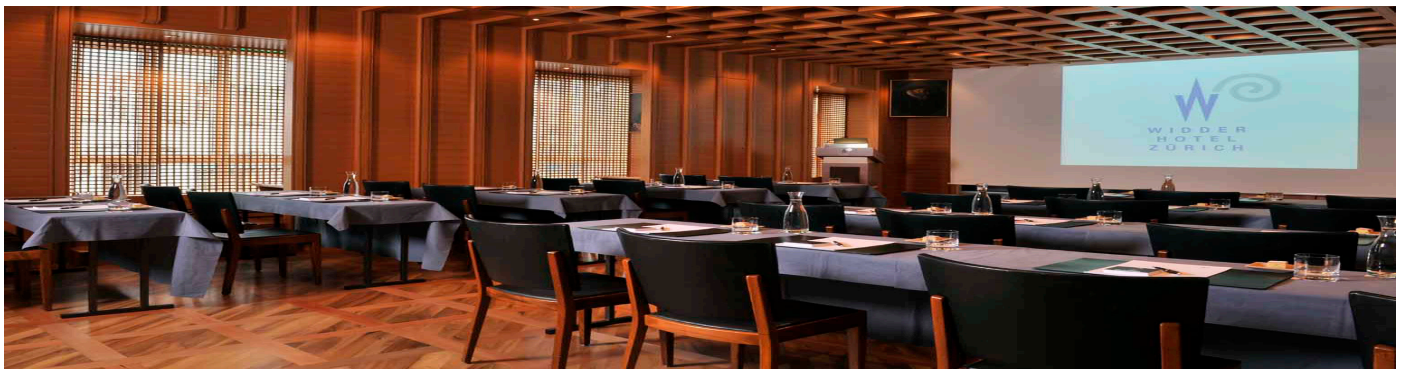

J.P. Morgan Cazenove is a leading investment bank focused on mergers & acquisitions, debt and equity placements as well as equity research and distribution based in the UK.

Designed to represent

Alternative Asset Classes.
